REPORT OF THE SUPERINTENDENT OF SCHOOLS TO THE BENNINGTON SCHOOL BOARD

Reorganization of the school this year included the appointment of Miss Cashion as principal of the building in the belief that this was a much welcomed step toward more smooth operation of the work in the several class rooms. Miss Cashion's intimate acquaintance with parents and the children of Bennington makes it possible for her to sympathize with many problems which arise in the school, and to render her decisions in accordance with the best interests of the school organization and the children.

The usual survey of the accomplishments showed that Bennington had done very well in bridging the gap between the ideal condition in the matter of money available for further reading and other technical supplies, and the limited budget. The survey standards which were reached showed marked improvement in geography and history. English, in the junior high school, has been exceedingly well taught. High school standards were met and the State Board approved Bennington High School for another year.

The installation of a radio in the intermediate grade room will make available the programs of the "Radio School of the Air" as well as the music appreciation course which is broadcast for school use. Other rooms could profit by the installation of radios. In particular the high school could well make use of the radio in the social sciences.

We appreciate the courtesy of the School Board and their support of the professional workers.

LAWTON CHASE,

Superintendent of Schools.
